

ARBITRATION

We have a multidisciplinary team with extensive experience in highly complex arbitration proceedings in the main domestic and foreign arbitration chambers.

Thanks to our practice in international disputes, we also have a consolidated network of relationships with other renowned law firms around the world, which enables us to act in a coordinated manner in transnational disputes.

Our focus is to advise our clients with the speed and excellence that business relationships require, always attentive to the needs of each business and the specificities of their markets.

We are committed to quality service in all phases of the business relationship.

OUR WORK INVOLVES
