EBOOK: NEW REGULATION ON CLINICAL ANALYSES – UNDERSTAND WHAT CHANGES

26 OCTOBER 2023

AUTHORS

RENATA ROTHBARTH
PARTNER / SÃO PAULO

As of August 1, 2023, the RDC Anvisa 786/23 introduced a new health regulation affecting the operations of clinical laboratories, anatomical pathology, and clinical analysis exams (EAC). The goal is to enhance the health safety standards of these activities and to allow specific tests to be conducted in pharmacies.

Businesses have up to 180 days to comply with the new rules. To understand what changes, download our exclusive publication on the topic and stay updated with the latest guidelines in the healthcare sector.
