# TRANSFORMATION IS POSSIBLE

The auto industry is going through a challenging time. Consumers review their needs and require vehicles with more technology and less environmental impact. For the Brazilian industry, there is also a complicated economic and tax scenario. Following global trends and innovating represent a challenge that requires a current and experienced legal partner.

We have a thorough knowledge of federal, state, and local taxes that affect the business sector, in addition to special tax systems and incentives that benefit businesses. We conduct studies on tax planning to get the best results in corporate restructuring involving the sale, acquisition, spin-off, consolidation, and merger of companies.

We have a team of professionals specializing in debt restructuring and insolvency, who have acted in some of the largest and most innovative transactions of this kind, with in-depth experience in financial operations, capital markets, civil litigation, labor and social security law.
